I hear something very serious is going on in Ukraine, but it has been kept silent from the mass media, something is likely going on, that has been specifically covered. CNN is not reporting anything on Ukraine, nothing. They report on far less important subjects across seas. There is even Martial Law in Ukraine, I hear the military has confiscated medical records, so the number of dead are not known, this was report by certain officials from Ukraine I heard. If anyone from Poland hears,post..!

Thank god for The Polish. The Health Minister is all but saying this is a scam.

- You are Polish?
 1. Tell me where it is where 100 people died of AH1N1 in poland and I will try to go there with a camera so we can report on that.
 2. Tamiflu (anty flu drug) was bought by Polish Health Ministry in August and was severely criticised by GPs that alarmed not to buy it since there's no need at all, except you want to fill pockets of pharmaceutical corporations.

- yes i am polish, i live in eastern poland, ~140 people died on a/h1n1 in western ukraine. at first it paralised trade with ukraine and people who work or studing with ukrainians here or just live close to them now live in fear. she have no support, country should buy this vaccine and let those people have normal life
- do you know why 250/1000 take vaccine in germany and 50/1000 in poland? - its because they want people pay for vaccine and in every civilised country it is for free of is cheap

small error in translation: 3.33: 50 mil Germans, but 10 mil. not 10% has been applied. 10 out of 50 is 20% :)

but doesn't really matter :) it's not often i fully agree with a politician

[maczikszcz](#) (vor 1 Woche)

I thought about it but I figured it was Kopacz's mistake otherwise numbers in following 20 seconds wouldn't make much sense, when she says that only 13% of German are willing to take the vaccine

I'm a Polish woman living in Canada.I'm truly shocked how ignorant Canadians are.They,out of their own free will,stand in long lines to get vaccinated(sometimes they wait for 5-6 hours!!!),they bring their little babies with and they complain that the government doesn't vaccinate them fast enough.Total absolute sad morons!

vladapablo (vor 6 Tagen) [Antworten](#) | [Spam](#) +9  

Well,that is american mentality..they dont think with there own heads...they are brain washed..if they told them on TV that white is black...and repeat that enough times,they gonna belive in that eventually...:))

Vedantka (vor 6 Tagen) [Antworten](#) | [Spam](#) +6  

That's very unfortunate but Canadians and Americans are trained from early childhood to give up their own thinking to the mass media and so called scientific and other authorities.

CheLalbin (vor 1 Woche) [Antworten](#) | [Spam](#) +1  

Thank You very much for this!

Here in Sweden probably around 10 people have died from the vaccine, we don't know, media don't report anymore of the deaths, really scary. Could it be possible to come to Poland as a refugee?

And they say the pols are dumb with all those polish jokes! Who are the fools NOW! Good for Poland, and the fine people looking out for their wellbeing; too bad that here in the US we have fools corrupted by big pharma, and even more fools brainwashed to do whatever they are told by the corrupt media.
